ALL BULBS RIGIDLY INSPECTED AND TREATED

All bulbs shipped out of or into Oregon are required to undergo rigid inspection and careful fumigation and treating. At request of Oregon Gladiolus growers quarantine regulations have been applied in this state so that Gladiolus are submitted to at least three cyanide treatments. To be safe we have given cyanide treatments to ours as required. In addition all bulbs are handled under naphthalene flakes and also are given special baths before planting. No pests can live in our bulbs. All go from the warehouses under a special Gladiolus inspection and are shipped under a special certificate covering Gladiolus from our state department of agriculture.
